Click For Serbia - Click For Kids

Click for Serbia (C4S) is a digital platform that brings together, promotes, and supports projects in the fields of culture, science, and sports, intending to provide domestic and foreign donations for projects. Some of the foundations with which we have cooperated so far are the foundations "Polunin", "1 percent", "SBB", as well as the "Children's Philharmonic" and the gallery of naive painting "Babka" in Kovacica. With the help of the founder - the Zurich "Aspermont" group, the organization "Click for Serbia" from Belgrade conducted several independent projects: production of videos about Serbian-Russian medallions - in cooperation with historian and permanent member of SANU Dr. Slavenko Terzic; then, the production of educational videos about Viminacium in collaboration with Dr. Korac, and the production of the Bon Ton coloring book "How to become a superhero of super behavior". Click for Serbia has established the cooperation with the Boxing club Radnicki Belgrade, and water polo club "Partizan" through the sponsorship arrangements.

"Click for Kids" is an annual project that aims to improve the living conditions of children in daily inns for orphans, orphanages, and shelters in Serbia. The project takes place in three stages which are at the same time the main "pillars" of the project.
